New World Screwworm Emergency Response

Last Modified:

The materials on this page are specific to New World screwworm (NWS). You can use these tools and resources to prepare for and respond to an outbreak of this pest.

We also offer materials that apply not only to NWS, but other foreign animal pests and diseases as well. To view these materials, visit Foreign Animal Disease Preparedness and Response.

To learn more about the current response to NWS, visit screwworm.gov. There, you'll find the USDA dashboard that tracks confirmed NWS detections in the United States, along with resources from across the Federal government and more.

Changelog: Recently Updated Documents

10/6/26 | New World Screwworm Response Playbook

Update: Clarifies when zone sizing may be adjusted, such as due to habitat/host factors (Section 2).

10/6/26 | New World Screwworm National Continuity of Business Standardized Animal Movement Guidance

Updates: Allows States to authorize movement requirement activities to be performed on other premises types, including temporary aggregation points, such as when movement requirement activities cannot be performed at the origin premises.

Clarifies that animals moving to slaughter from the Infested Zone can have the 72-hour clock requirement reset if they are inspected again by an authorized inspector.

10/6/26 | Ready Reference Guide - Establishing and Releasing NWS Zones and Areas

Update: Clarifies when zone sizing may be adjusted.

New Section: Provides criteria for releasing Infested Zones.

7/20/26 | USDA Authorization for Response and Associated Activities (141.88 KB)

Update: Clarifies that only APHIS-approved laboratories or entomologists can status NWS cases as presumptive positive prior to NVSL confirmatory testing.

NWS Response and Policy Information

Feedback on NWS Response Playbook

APHIS welcomes ongoing feedback from our State and industry partners on the NWS Response Playbook (881.06 KB).

Supplemental guidance and materials referenced in the playbook are available in the accordions below. We appreciate your continued coordination and collaboration. Your feedback helps us refine the playbook and keep State and Federal response efforts aligned.

Submit Feedback

NWS Response Playbook

(PDF, 881.06 KB)

An operational plan detailing field response, including key activities, resources, and tools for an adaptive NWS outbreak response and surveillance.

NWS Response Playbook Infographic

(PDF, 104.72 KB)

A quick overview of the key activities in the NWS Response Playbook, highlighting the main steps in surveillance, containment, and coordination.

Disease Response Strategy: NWS Myiasis

(PDF, 925.21 KB)

Official USDA disease strategy with core foundational scientific information and historical context for Federal, State, and international partners.
