Mobile Data Collection Tools

Last Modified:

APHIS PPQ End User Tools group supports Field Operations in electronic mobile data collection. This assistance includes workflow documentation and recorded training supporting the use of mobile devices and mobile applications.

Training Events and Documents

General and pest program specific training documents are created as applications are configured for the new year. Watch for updates often. Direct questions to Mark Crane.

Training Events

Locate the training event, mark your calendar, and click on the link to attend.

General Training Documents

Browse training resources on all things mobile data collection, including the Apple iPad and mobile data applications such as ArcGIS Field Maps, ArcGIS Survey123, and eTRAP.

Pest Program-Specific Training Documents

Browse training resources on all pest programs currently using national electronic mobile data collection solutions.

Job Aids

View job aids for using the Integrated Plant Health Information System (IPHIS) and for submitting an iPad Intune enrollment request.

Job Aids

- ArcGIS Field Maps. Internal Users
- ArcGIS Field Maps. External Users
- IPHIS: 4 Steps to Data Entry
- IPHIS: Lexicon of Words
- IPHIS: Surveys Defined
- IPHIS: User Roles
- PPQ iPad Intune Enrollment Request
- PPQ Mobile Device Disposal Request

Video Catalog

Training videos are provided as an alternative if scheduling does not permit live attendance and users are encouraged to review regularly. Use the Search box to locate video training by keyword.
