NWRC Utah Field Station Staff: Sarah Densmore

Last Modified:

Sarah Densmore is a biological science technician (wildlife) at the National Wildlife Research Center’s Utah Field Station.

Prior to working as an animal care technician, Sarah was a wildlife rehabilitator for small mammals, coordinated volunteers for raptor rehabilitation, and assisted with

writing the 2024-2028 Texas Outdoor Recreation Plan, as well as the 2024-2033 Texas Land and Water Plan. She is passionate about working with predators and assisting in research projects to reduce human-wildlife conflict.

Research Project

Managing Human-Wildlife Conflict with Mammalian and Avian Predators

The goals of this project are to generate and disseminate ecological information related to both mammalian and avian predator management, particularly aimed at

Education

- M.W.S., Wildlife Science, Texas A&M University
- B.A., Psychology, Hendrix College
- B.A., Theatre Arts, Hendrix College
