Opportunity Number:

USDA-APHIS-10025-VSSP0000-27-0001

Opportunity Type:

Cooperative Agreement

Catalog of Federal Domestic Assistance Number:

10.025, Plant and Animal Disease, Pest Control, and Animal Care

Under the National Animal Disease Preparedness and Response Program (NADPRP), APHIS funds projects that strengthen local, regional, and national capabilities to prevent, prepare for, and respond to the most critical animal and pest disease

threats facing U.S. livestock industries today. These projects are vital to safeguard American agriculture, ensure a secure food supply, and facilitate safe agricultural trade.

APHIS is making up to $40 million available through the NADPRP Industry Preparedness Notice of Funding Opportunity Fiscal Year (FY) 2027. This limited competitive funding opportunity is open to State or national livestock, poultry, or aquaculture producer organizations and State, national, allied, or regional veterinary organizations or specialty boards recognized by the American Veterinary Medical Association.

Funding priorities include:

- Improving communication on foreign animal disease prevention, preparedness, and response
- Training and exercises to improve foreign animal disease outbreak response capabilities
- Improving biosecurity for all types and sizes of livestock operations
- Helping industry modernize their animal disease traceability systems and improve their data sharing with State and Federal officials
- Conducting applied research to improve foreign animal disease preparedness and response

Read more about high-priority project topics in the Notice of Funding Opportunity.
