Veterinary Services User Fee Rates To Remain Unchanged for FY 2026

APHIS is announcing that current Veterinary Services user fee rates will remain unchanged for fiscal year (FY) 2026. After evaluating operational needs, available resources, and the status of planned projects and hiring, we have determined that no fee adjustments are necessary at this time.

We will continue to monitor program costs and revenue throughout the year and will reevaluate user fee rates in FY 2027. This approach provides stakeholders with continued business planning certainty.

We will provide updates through the APHIS email subscription service as we begin the FY 2027 user fee-setting process.
