Certification Statements:

I, the undersigned USDA Accredited Veterinarian, certify the following:

1. I have verified the presence of the microchip numbers listed in box 21.
2. The animals described in box 21 have been inspected by me on this date and appear to be free of any infectious or contagious diseases and, to the best of my knowledge, exposure thereto, which would endanger the animals or other animals or would endanger public health.
3. Regarding rabies for both dogs and cats:
 - a. To my knowledge, the animals for export originated from a premises not quarantined for rabies and have not been exposed to rabies.
 - b. The animals for export are at least three (3) months of age and are fully vaccinated against rabies virus, as noted on the table below.
 - c. The animals for export have a rabies titer test result of a serum antibody level of not less than 0.5 IU/ml, performed in an accredited laboratory in the United States, as noted in the table below.
5. The animals for export were vaccinated in accordance with the manufacturer's guidelines, with the first vaccination dose administered before the animal was two (2) months of age, a booster given 2 weeks to 1 month after initial vaccination, and one month has past since the booster was administered prior to export, for the following diseases:
 - a. The dogs in this export:

[O] have been vaccinated against the following diseases as noted on the table below: canine distemper, hepatitis (adenovirus), parainfluenza, parvovirus, and leptospirosis.

[O] there are no dogs in this export.
 - b. The cats in this export:

[O] have been vaccinated against the following diseases as noted on the table below: feline herpesvirus (feline viral rhinotracheitis), feline calicivirus, and feline panleukopenia (feline distemper).

This certificate is valid for 30 days after issuance.
